Signature: _____

Date: _____

*Voting will occur via a QR code online poll with top 3 entries announced at end of Carnival

Submit completed form to epray@mountainlakeservices.org or bpray@mountainlakeservices.org

Mountain Lake Services is proud to partner with the
Saranac Lake Winter Carnival to host the

2026 Frozen Suncatcher Contest

a celebration of creativity, winter, and nature.

What Is a Frozen Suncatcher?

Frozen suncatchers are unique works of wintery art created by suspending biodegradable, natural materials in ice. As the ice melts, all materials must safely return to nature without leaving behind litter or debris.

Approved materials include:

- Plants and greenery
- Dried flowers
- Fruits, berries, or seeds
- Natural colorings
- Other Biodegradable Elements

Not permitted:

- Plastic
- Glass
- Paper
- Metal

Entries containing non-approved materials will be disqualified.

Due to display space and hanging weight limitations:

- Suncatchers must be created using a 9-inch or 12-inch bundt or cake pan**
- Each suncatcher must include a hole to allow for a zip tie to be threaded for hanging**
- All entries must be sturdy enough to hang safely outdoors**

All entries will be judged via online poll, and the **TOP 3** vote recipients will be announced and recognized at the end of the carnival.

Advance registration is required.

To register your entry or request additional details, please email:
epay@mountainlakeservices.org or bpay@mountainlakeservices.org for further details.

Participants are encouraged to be creative while following contest guidelines.
